THE BEACHBALL PRINT
CHALK PASTEL ON
SCREEN PRINT
30" X 22"
2016
\$500 EACH

In 2016, during a local college basketball game, I set up a camera and recorded myself throwing a beach ball into a crowd of fans. Using the footage, I tracked the trajectory that the beach ball followed, bouncing around the audience until being popped and taken out of the arena. That path is drawn and documented on this screen print.
